Product Declaration – Dimethylfumarate

March 19, 2010

Subject: Product Declaration – Dimethylfumarate Content

Dear Valued Customer:

Formosa's *Formolene*® polypropylene and polyethylene resins and *Formolon*® polyvinyl chloride resins, as produced by Formosa Plastics Corporation, do not contain dimethylfumarate (CAS 624-49-7).

Furthermore, based upon our knowledge of the manufacturing process and information provided by our raw material suppliers, we would not expect this substance to be present in our final products. Analysis for this chemical is not routinely performed on these products.

As always, *You expect more. And Formosa delivers*®. If you have any questions, please do not hesitate to contact me.

John Pastuck
