**Re: TSCA Inventory Reset Rule**

Dear Valued Customer:

Formosa Plastics Corporation, U.S.A. is in the process of evaluating our products to verify compliance with the Toxic Substances Control Act (TSCA) inventory reset rule (82 FR 37520). We will be verifying that all of the chemicals we manufacture or import are on the TSCA “active” list by the February 7, 2018 deadline. We will also be working with our suppliers to ensure the additives in our products that are sourced domestically are on the “active” list.

However, please note that since all companies have the same October 5, 2018 deadline to verify their domestically sourced ingredients, we may not be able to provide a complete confirmation until the middle of 2018.

In the meantime, please rest assured that we are actively working on this and will follow-up with our customers when this project is complete.

As always, *You expect more. And Formosa delivers®*. If you have questions, please contact your Sales Representative.

Kind Regards,

Fred W. Neske, CIH, CSP, CFPS  
Manager – Corporate Safety & Industrial Hygiene  
Formosa Plastics Corporation, U.S.A.
