Stay upwind of spilled material.

Wear appropriate personal protective equipment during all clean-up activities. See Section 8 for more information.

Avoid inhalation and direct contact.

All clean-up personnel must be properly trained.

• **Environmental Precautions:**

Keep spilled material out of sewage/drainage systems and waterways.

This product contains a U.S. EPA Reportable Quantity (RQ) substance. If amounts exceeding the Reportable Quantity are released, notification of the National Response Center +1 (800) 424-8802 is required. See Section 15 for more information.

• **Methods for Containment and Clean-Up:**

Ensure adequate ventilation.

Secure the source of the leak if conditions are safe.

Use neutralizing agent.

Collect using an appropriate absorbent material such as clay or sand.

Place waste in an appropriate container for disposal.

Use care during clean-up to avoid exposure to the material and injury from broken containers.

7: Handling and Storage

• **Precautions for Safe Handling:**

Ensure adequate ventilation.

Avoid inhalation and direct contact.

Wear appropriate personal protective equipment.

Do not mix with water without dilution and agitation to prevent potentially violent reaction.

Flammable and explosive hydrogen gas can be generated inside metal drums and storage tanks.

Concentrated acid can ignite combustible materials on contact. If water is added to acid, violent spattering can occur and considerable heat may be involved.

• **Protection Against Fires and Explosions:** No special measures required.

• **Conditions for Safe Storage:**

Store in closed, properly labeled containers.

Protect containers from heat, physical damage, ignition sources and incompatible materials.

Have emergency equipment for fires and spills readily available.

- **Engineering Controls:**

Use local exhaust ventilation during open transfers.
 Check ventilation for proper operation before starting work.
 Ensure emergency eyewash and shower facilities are available.

- **General Protective and Hygienic Measures:**

Wash thoroughly after handling.
 Use only outdoors or in a well-ventilated area.
 Follow all safety precautions, posted signs and warnings.
 Do not inhale gases / fumes / aerosols.
 Avoid contact with the eyes and skin.

- **Respiratory Protection:**

An industrial hygiene risk assessment is required to determine appropriate respiratory protection.
 An air-purifying respirator may be appropriate under limited exposure conditions.
 Perform a respirator fit/seal check after donning.
 Protection provided by air-purifying respirators is limited.
 Wear a self-contained breathing apparatus (SCBA) if there is a potential for uncontrolled release, exposure levels are not known, or in other circumstances where air-purifying respirators may not provide adequate protection.

- **Hand Protection:**

Chemical resistant gloves.

Wear a second pair of chemical resistant gloves for added protection.
 Tape gloves to coveralls or suit, if worn.
 Use caution when removing gloves to avoid exposure to hazardous chemicals.
