Avoid inhalation and direct contact.

- **Environmental Precautions:** Keep spilled material out of sewage/drainage systems and waterways.
 - **Methods and Material for Containment and Cleaning Up:**
Collect spilled material using a method that controls dust generation such as a high efficiency particulate air (HEPA) vacuum.
Place waste in an appropriate container for disposal.
Use care during clean-up to avoid exposure to the material and injury from broken containers.
Remove spilled material from the top of the car/truck before leaving the containment area. Keep storage silos, tanks and containers in good condition to avoid leaks. Place collecting trays under discharge/loading valves and connecting points.
